

You should take a minute to go through the itinerary before you start your Daytrip. It's pretty easy to navigate a Daytrip alone but it's always helpful to have a companion, especially if it's your first time out. You'll find that there is probably more information than you will need concerning directions, landmarks, and comments.

If you follow the itinerary you'll never get lost (though some times it might feel that way), but it's a good idea to have a service station type roadmap with you. Any true backroad that you may be on will generally wind up at a main State Route or U.S. Highway at some point.

There are two sets of mileage numbers for each Itinerary item: The first is the driving distance of that specific item and the second number, in brackets, is the accumulated mileage from the beginning of the Daytrip. Distances between points are to the tenth of a mile. This is more about precision and accuracy than wanting you to constantly watch the odometer. Since each odometer may vary slightly you may notice a small discrepancies in the Itinerary mileage numbers.

While some directions require you to pay attention to a turn, most happen at a deadend and/or well described landmark. RELAX AND ENJOY THE DRIVE.

The most important parts of the itinerary are highlighted. Have a pen with you so you can check off the itinerary along the way. We expect that you'll find a "Daytrip Favorite" that you'll want to take more than once. In our experience, we hardly glanced at the itinerary on a repeat Daytrip. Once you're out there on the road, it will be that obvious.

Please read the Rules of the Road page on our website [www.DaytripCincinnati.com](http://www.DaytripCincinnati.com)

## **JUST ROADS**

Here's a Daytrip that's all about drivin'. If you drive all three Legs of this Daytrip, you'll find that you only come to 6 or 7 traffic lights or stopsigns. The First Leg has great roads, but is somewhat residential in places, so please drive extra-carefully. The Second Leg is much less populated, and the Third Leg is pretty remote. Each Leg begins and ends at US Highway 52. Drivetimes are broken down at the end of each Leg, so you will know how far you are from I-275 at that point.

There are a couple of golf courses along the way, one 1.2 mile outside of Lindale, Ohio and another just before you enter Nicholasville, Ohio, so you may want to bring your sticks. These are both on the First Leg.

The Third Leg takes you from the Ohio River up the hill to Georgetown, Ohio. Here you'll have a Daytrip Option to visit the boyhood home of Ulysses S. Grant. Along this route you'll also pass a couple of old Mail Pouch and Rock City Barns.

We think that you will especially like Shinkle Ridge Road on the Second Leg and Old US 62 on the Third Leg.

This Daytrip will take you through Clermont, Brown, and Adams Counties in Ohio. Go to the Links page for complete information on festivals, events, shopping, history, and much, much more.

**Drivetime for this Daytrip is 4 hours.**
